Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 38-43, 45 and 46 are rejected under 35 U.S.C. 102(b) as being anticipated by Zink (DE20109056). Zink discloses an object with an exposed surface (building roof/wall; best seen in figure 1); provided with a safety device (figures 1 & 2) for attachment of a fall restraint, comprising: anchoring means (5) to which the fall restraint can be coupled directly or indirectly, and fastening means (9) that make a firm and durable connection to said object (figure 1), the fastening means comprise a flexible fastening flap (9) extends around the anchoring means (figures 1 & 2) and that leaves the exposed surface puncture free (figures 1 & 2); the flap being locally bonded to said exposed surface via wall covering materials (2 & 3); the flap also being of a wall covering material (figure 1); wherein the wall covering materials comprise a plastic roof covering (Zink, description, page 1, paragraph 1; page 2, paragraph 1; page 3, paragraph 3; and page 4, paragraph 1); wherein the anchoring means further comprises a substantially rigid substantially flat body (6) provided with the anchor member (figures 1 & 2); the flap extending laterally from the body adhering to the surface (figures 1 & 2) and wherein the anchoring member (5) is selected from the group of a threaded end, a fixing eyelet, a cable guide and a cable bushing (figures 1 & 2).

Allowable Subject Matter

Claims 47-51 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
